Wholesale Prices on
**Tennessee
Trees**

Grown by
Tennessee Wholesale Nurseries
(Incorporated)

Aubrey Frink, Secretary and Manager
Winchester, Tenn.

Prof. G. M. Bentley, our State Entomologist and quite an authority on nursery stock, in his last annual report says:

"We believe greater success in orcharding would result from planting Tennessee-grown trees. The variety of stock grown is very general, that suitable both for Northern and Southern trade. Northern nurserymen contract with Tennessee growers especially for apple trees, knowing that due to the long growing season here, stock of two years' growth will equal that of three years in the colder climate. In this and many other features Tennessee holds great advantages, and today ranks first as the leading Nursery state in the South."

TENNESSEE WHOLESALE NURSERIES

(INCORPORATED)

PAID IN CAPITAL \$60,000.00

Winchester, Tenn., Sept. 15, 1910

TO THE TRADE:

Last year upon issuance of our trade list orders and inquiries came pouring in on us and soon our stocks became broken and many of our customers were disappointed in not finding a good deal of the stock they needed. As the season advanced and stocks throughout the country were booked up prices advanced sharply.

This season while we have a much larger supply of trees and of much better grades than last, we find the demand even stronger, and have already booked far heavier than at a similar time last year. We anticipate similar conditions of trade and expect prices to again sharply advance a little later this fall and next spring. We urge you, therefore, to send orders early so we may book yours while our stocks are comparatively unbroken.

PEACH==One Year on Native Root

Natural mountain Tennessee Peach Pits have a national reputation. They are considered the best that can possibly be had. San Jose Scale, Root Knot, Yellows and Rosette are unknown in this locality.

	Per 1000
5 to 6 ft., $\frac{3}{4}$ to 1 inch, well branched, <i>Abaca</i>	\$90.00

12 to 18 inches, <i>Joke</i>	9.00
6 to 12 inches, <i>Junior</i>	7.50

TERMS OF BUSINESS

SHIPPING SEASON. We begin shipping about October 1st and continue to about April 1st.

GRADING. We grade by height and caliper, the caliper always governing unless otherwise specified by purchaser.

PACKING is done by experienced men under a competent foreman and all shipments are put up in best possible manner. Usual charges for boxing and baling.

TERMS AND PRICES. Thirty days net to responsible parties unless otherwise arranged before stock is shipped. Orders from parties unknown to us must be accompanied by cash in full. Or we will ship C. O. D. or "Order Notify" when 20% of the amount of the order accompanies it. Prices named in this list are net and subject to change without notice.

GUARANTEE. Our stock is grown and handled by capable, experienced men and great care is exercised to keep varieties pure and true to name. We hold ourselves at all times ready to replace, on proper proof, all stock that may prove otherwise, but will not at any time be liable for any amount greater than the original price paid us. All orders are accepted only on this condition and that they shall be void should any injury befall the stock from frost, hail, storm, fire or other causes beyond our control.

SHIPPING DIRECTIONS.—We respectfully ask our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants* after a proper shipment by us.

All trees travel at purchaser's expense and risk. In case of loss or damage in transit, claims must be made against transportation companies, but we will be glad to help collect claims, or in case of delayed shipments, will have them traced and delivery effected as soon as we can.

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value limited to \$3.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in a cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us and without our orders for their disposition.

CABLE ADDRESS "Wholnurs, Winchester, Tenn." We use "Nurserymen's and A. B. C. 5" edition codes.
